June 5, 2017

Professor Xiaoyang Liu

College of Chemistry, Jilin University, China

Dear Liu,

We would like to invite you to visit the Institute of Materials Research and Engineering for discussing the research outcome and facilitating further collaboration in the field of nanostructured materials and applications.

As we talked over phone and communicated through email, we realized there are significant research progresses that have been made at both sides for the joint research project. It is time to meet for a detailed discussion. It will be great you can come June 22-26, 2017. We will stay in Singapore during 18-22 and go to Malaysia during 22-26, 2017 for multi-lateral collaboration. Meanwhile, we would like to invite you to deliver a talk as well.

We look forward to seeing you then!

Sincerely yours,

Dr Ming-Yong Han
Professor in Materials Science and Bioengineering
